

WARSHIPS DOCK FOR OVERHAULING

Seven Sea Fighters at the League Island Navy Yard.

MASCOTS' FRIENDLY BOUT

Animals of All Sorts Do Stunts in Which Flotilla Contingent Was Worsted.

PHILADELPHIA, June 6.—Seven of Uncle Sam's ships, bringing with them 1,400 jacks, fifty officers, and twenty-five mascots, have arrived at the League Island Navy Yard for a general overhauling.

Mascots Line Up.

The mascots wandered up to the campus fronting the marine barracks and exchanged experiences. It was a queer collection, consisting of nine weird-looking dogs, six cats, five goats, and five monkeys.

Before they could be officially introduced the dogs had a battle royal, in which the animals from the flotilla were worsted. The monkeys, cats and goats—all veteran mascots—watched the baseball game between the teams of the Lancaster and Hopkins peacefully.

The Kearsarge, now one of the most formidable ships in the navy, is in command of Captain Herbert Winslow, son of Capt. John A. Winslow, who commanded the Kearsarge in its memorable battle with the Alabama.

Kearsarge's Good Record.

Besides ranking high in target shooting, the Kearsarge's crew captured two trophies during the last year. One was taken from boat sailing and the other by the twelve-oared crew. The Kearsarge will be overhauled during its stay here, and will leave again in about three weeks for New York to go into drydock. The destroyers will also be overhauled. The naval transport Dixie, now at the yard, has been put in commission and will be used by the naval militia of some of the Atlantic States in its cruises. The cruiser Brooklyn, which is also at the yard, will probably be used by the Pennsylvania Naval Reserves.

PEEK-A-BOO SHIRTWAIST DENOUNCED BY PRIEST

Tells Women of Congregation to Go Home and Take Off Bathing Suits.

ROCHESTER, Pa., June 6.—"Go home and take those bathing suits off. This is no bathing resort."

Rev. Father George M. Schoener, pastor of St. Cecilia's Catholic Church, said this from the pulpit to many of his fair hearers and the fashionable suburb of Pittsburg is in spasms over it. The reverend father was speaking of the "peek-a-boo" shirt waists which many of the fashionable of the congregation were wearing that warm day.

"The church of God is no place for an unseemly display of gaudy clothing and those queer shirt waists," continued the man of God, and the women left church very hurriedly after the service was concluded.

Rev. Father Schoener has been most bitterly opposed to what he terms vulgar display on the part of women of his congregation, and when he some evenings ago announced that he would preach a sermon on the vanity of women's dress, the church was crowded.

POISON IN COMBINATION.

A curious account of a death comes from Indiana. A young lady of twenty died of ptomaine poisoning, due to the chemical changes wrought by mixing in the stomach two ingredients, each in itself a perfectly wholesome food. The victim ate a good deal of spinach at dinner at noon, and at supper five hours later ate generously of strawberry shortcake and cream. An hour later she was in convulsions, and physicians could not arrest the disease, and she died in great agony. Medical men say that Gilmore, the great bandmaster, died the same way, first eating heartily of bananas and later drinking whiskey.

In both cases what was eaten was wholesome, but when mixed the result was like that produced by uniting two elements which are both when separate harmless, but which when mixed produce a deadly compound. Under such circumstances it behooves people to try to find out what to eat. A great difficulty lies in the fact that people are not affected alike. The chances are that had a dozen other people eaten the spinach and the shortcake, or the bananas and then drank whiskey, they would have suffered no harm from the compound. This indicates that there must be something more to make the trouble. What was the state of the stomach or the nerves of the person made ill?

And this awakens the question of whether either bananas or strawberries ought to be eaten except when perfectly fresh.

Many people can eat neither strawberries nor tomatoes because of some element in them which their stomachs revolt against. What is the chemistry of it? Are the fruits vicious, or is the system that cannot stand them out of fit?—Salt Lake City Telegram.

SICK HEADACHE

CARTER'S LITTLE LIVER PILLS. Positively cured by these Little Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Biliary Disorders, such as Nausea, Headache, Dizziness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER.

They regulate the Bowels. Purely vegetable. Small Pill. Small Dose. Small Price.

CARTER'S LITTLE LIVER PILLS. Genuine Must Bear Fac-Simile Signature. *Small Pill. Small Dose. Small Price.* REFUSE SUBSTITUTES.

Babies Killed by Scores By Bad Milk in Summer

Cows Should Be Healthy and Milkers Neat. Commissioner Dixon Advises Sterilization and Opposes Use of Tube Bottles.

HARRISBURG, Pa., June 6.—How to keep the babies well during the hot season is something close to State Health Commissioner Dixon's heart at present. Speaking of some of the precautions that careful mothers should take, Dr. Dixon said:

"It is doubtless not generally known that at least one-fourth of all children in the civilized world die before they reach the age of five years, and at least one-half of all deaths among infants are due to diarrhoeal diseases. These are confined almost exclusively to children fed wholly or in part on cow's milk."

Cattle Must Be Healthy.

"The cattle must be healthy, and the milk of cows, apparently indisposed, should not be mixed with that from healthy animals. Such cattle should not be fed upon swill or the refuse of breweries or any other fermented food. The pasture land should be free from noxious weeds, a pure water supply should be accessible, the stables well ventilated and together with the barnyard, kept scrupulously clean. The udder should be washed clean before milking, and the first few drops of milk, which are heavily charged with bacteria, should be rejected."

It is needless to say that the milkers should have clean, dry hands, wear only washable clothing and be free from illness suggestive of diphtheria, scarlet fever, typhoid fever or consumption.

Scald the Milk Utensils.

"All milk containers used by householders should be of tin, glass or porcelain, and thoroughly scalded before and after use, and while containing milk should not be allowed to stand uncovered in sleeping or living rooms where flies may have access to it, but placed in a refrigerator, the waste water of which is discharged into the open air, and not into a cesspool or kitchen drain."

"In the use of ordinary market milk for infants, especially during the summer months, it would be advisable to sterilize it. In doing this, the advice of the family physician should be sought, for unless sterilization is carefully conducted along scientific lines, it is worthless, and offers only a false sense of security. Properly conducted sterilization will destroy disease-producing germs in the milk, but, unfortunately, has no effect on the poisons eliminated by these germs. Such sterile milk, commonly known as Pasteurized milk, can be obtained in most of the cities, and has undoubtedly been instrumental in the saving of thousands of lives."

Should Take Care of Bottles.

"One of the greatest causes of milk infection and infant mortality is unquestionably due to lack of care of the nursing bottle. An ordinary bottle that is scalded and kept clean, to which a clean rubber nipple is attached, is far safer than the tube bottles."

HIS FATHER'S TOMBSTONE ADVERTISED FOR SALE

OWENSBORO, Ky., June 6.—"For sale—Vacant extra lot in Elmwood Cemetery, 10 by 20 feet, with monument that cost \$335; sufficient space on monument for several inscriptions; at a bargain for quick sale. J. Q. Haynes."

This advertisement in a local paper has caused one of Owensboro's capitalists no end of annoyance.

Mr. Haynes owns a lot in Elmwood, adjoining the lot in which his father is buried. There is a large tombstone, which practically covers both lots. There is an inscription on the tombstone on the side, which covers the father's grave, but on the side of the monument on the vacant lot there is no marking. It is this side he wants to sell.

TRUE ENOUGH.

Nell—She says she gets so tired of shopping; it makes her so weary. Belle—Such airs! As if she had any time for it. Of course, I don't know, but I'll bet she works all day. Nell—That's just it. She's a saleswoman.

DEATH LURKS IN SMOKE AND TRUST-MADE FOODS

Health Expert Dilates at Length Upon the Brutality of American Business Life Before Federation of Women's Clubs.

ST. PAUL, Minn., June 6.—A sharp attack on what he termed "the commercial brutality of American business life" was made by Dr. Justus O'Hage, health commissioner of St. Paul, in an address before the Federation of Women's Clubs, in convention here.

"Some persons," said Dr. O'Hage, "think that a bank of smoke hanging over a city is a sign of industrial prosperity. I wish to contradict them. A bank of smoke over a city is a sign of industrial stupidity. Not only is smoke a waste of fuel, but it is a danger to health. It affects the bronchial tubes and causes irritated conditions which make the lungs susceptible to the attack of tuberculous germs."

"Turning from the smoke nuisance Dr. O'Hage, who has just returned from a tour of European cities, dealt with other evils of American cities, saying:

"I would like to ask twenty-four members of the Drug trust, the Meat trust and other food trusts to permit me to feed them on the stuff taken from their stomachs. I will guarantee that there will be twenty-two funerals within a few days."

"Appendicitis, you have been told, comes from the lodgment of seeds in the appendix. This is not true. It is purely a bacteriological disease caused by germs from food we eat."

Of the battle for civic reform, Dr. O'Hage said: "We hear a great deal about the dishonesty of politicians. The dishonesty of the commercial classes is to blame. If they will let the politicians alone they will be honest men. If you wish to eliminate graft begin with your schools, your churches—begin at the cradles. The work is especially the work of women of the type represented by this association."

CONNECTICUT PEOPLE TO HAVE JOLLIFICATION

The Connecticut Republican Association of the District of Columbia will hold a smoker and jollification at Grand Army Hall, 1412 Pennsylvania avenue northwest, on Saturday evening, June 9, at 8 o'clock, to which all Connecticut people residing in Washington are cordially invited. Members of the Connecticut delegation in Congress will be present, and one will address the meeting.

MRS. DAVIS RECUPERATING WILL GO TO SUMMER RESORT

NEW YORK, June 6.—Mrs. Jefferson Davis, who has been seriously ill for several weeks at the Hotel Gerard in this city, is said now to be so far advanced toward recovery that her friends have no further uneasiness. Arrangements have been made for her removal to a summer resort, where it is believed she will be completely restored to health within a short time. Mrs. Davis suffered from an attack of pulmonary oedema, following pneumonia brought on by exposure in cold rain while driving in the park. Owing to the advanced age of the patient, her life was despaired of for nearly a month.

BROOKLYN RAILROADS TO EMPLOY TRANSFER AGENTS

NEW YORK, June 6.—The Brooklyn Rapid Transit Company has adopted the plan of giving transfers through men stationed at the intersections, instead of through the conductors. Hereafter the conductors will give transfers only at the less important intersections. At sixty-two main intersecting points transfer agents will be on duty day and night. The plan means an added expense of about \$2,000 a week, but the company believes that by allowing the conductors more time to run the cars and look after passengers it will improve the service.

MOTHER BROKE UP STONE OVER HER CHILD'S GRAVE

MARION, Ind., June 6.—Raymond Hancock yesterday complained to the police that his wife had broken to pieces the monument over the grave of their infant son. Examination showed the figure on top of the monument, representing a sleeping infant, had been broken and defaced. After the figure had been demolished the mother had the stone rolled away and placed a basket of flowers on the grave. A warrant for the mother's arrest was taken out.

"First Aid" to the Bowels

DOCTOR CASCARET
Office - In your own Vest Pocket.
On call any Minute - Day or Night.

Then he works them (through the nerves) till they get so strong from that Exercise that they don't need any more help to do their duty.

But Dr. Cascaret wants to be right on the spot, in your Pocket or Purse, where he can regulate these Bowel-Muscles all the time, in health, and out of health.

Because, even the strongest Bowel-Muscles may be overworked.

Heavy dinners, late suppers, whiskey, wine, or beer drinking, nervous excitement, sudden exposure to cold or heat and a dozen other every day likelihoods tire the Bowel Muscles.

In such cases a little Cascaret in time is worth fifty dollars worth of Treatment later on, to say nothing of the suffering, discomfort, loss of Business Energy, and loss of Social Sunshine it saves.

Old Dr. Cascaret carried constantly in your Vest Pocket, or in "My Lady's" Purse is the cheapest kind of Health Insurance, and Happiness—Promotion, that ever happened.

Little thin enamel Cascaret Box, half as thick as your watch, round-cornered, smooth-edged, and shaped so you don't notice its presence.

Contains six Candy Tablets—Price Ten Cents a Box at any Druggist's.

Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "CCC."

FREE TO OUR FRIENDS!

We want to send to our friends a beautiful French-designed, GOLD-PLATED BOMBON BOX, hard-enamelled in colors. It is a beauty for the dressing table. Ten cents in stamps is asked as a measure of good faith and to cover cost of Cascarets, with which this dainty trinket is loaded. 714 Send to-day, mentioning this paper. Address Sterling Remedy Company, Chicago or New York.
